NEW YORK. Aug. 1.—The statement of the clearing house banks for the week shows that the banks hold \$59,082,575 more than the requirements of the 25 per cent reserve rule. This is an increase of \$2,567,325 in the proportionate cash reserve as compared with last week. The statement follows:

The percentage of actual reserve of the clearing house banks at the close of business today was 22,38.
The statement of banks and trust companies of Greater New York not members of the clearing house shows that these institutions have aggregate deposits of \$1,905,379,490. Total cash on hand, \$97,876,500, and loans amounting to \$997,476,800. The Financier will say:
The official statement of the New York associated banks for the last week showed an actual decrease in cash instead of a comparatively small gain as was expected from the preliminary estimates; this loss was doubtless due to the operations of the subtreasury with the banks as the result, largely, of the payment through these institutions to the government of about \$5,000,000 on account of the Central Pacific subsidy indebtedness, which was finally cancelled last week, and also of transfers of \$3,000,000 gold to Canada. It may be noted, however, that the average statement indicated a gain of about \$4,000,000 cash, and there was an increase in reserves shown by such statement of \$2,567,325, whereas the report of actual conditions showed a loss of \$1,143,275 reserve to \$59,570,475. Loans increased \$2,309,500, according to the averages; there was a decrease of \$444,700 as shown by the actual conditions. Average deposits were greater by \$6,413,100, while actually they were \$859,800 less. The banks now have a percentage of \$29,35 reserve to deposits; state banks show 30.60, and trust companies 36,60 per cent.

Making New Currency.

WASHINGTON, Aug. 1.—The treasury officials are making satisfactory progress in getting out emergency notes under the circulation act passed at the last session of Congress. Acting Secretary Coolidge said today that the bureau of engraving and printing, under the direction of Superintendent Raiph, is delivering to the treasury from \$2,000,000 to \$3,000,000 in the new currency daily, and by the middle of September fully \$100,000,000 would be ready for delivery to the banks on call. It is expected by the time Congress meets in December the whole \$500,000,000 authorized will be printed and ready for distribution. Making New Currency.

BULLS RULE WHEAT IN SHORT SESSION

Reports From Northwest Act as Stimulating Factors.

CHICAGO, Aug. 1.—The bulls captured the wheat market this morning with the assistance of hot weather in the Northwest, the effect of which on the ripening crop may be detrimental. Black rust was a contributing factor. The market opened steady, September but slightly changing at 91½ to 91½@91½c. A wild advance at Minneapolls was taken as confirmation of damage reports and under excited covering by shorts September advanced to 92½c and closed the short session only a shade below this.

Corn was influenced by the continued dry weather over a large portion of the territory where previous suffering has been reported. Reports were again numerous that damage was already done, and with this, taken in connection with the strength of wheat, the market received a strong start and held it until the end. September sold between 47½c and 75½c and closed ½e up, at 75½c.

The oats market was firm, in sympathy with other cereals. The general trade was light. September sold between 44½c and 44½@44½c and closed lo over yesterday, at 45@45½c.

Provisions again ruled firm. September pork closed at \$15.55, September lard at \$9.55, and September ribs at \$9.07½.

BUSINESS BRISK

Hot Weather and Black Rust Merchants Were Kept Busy in All Lines of Trade on Saturday.

> Saturday was a lively day on Market row. Despite the intense heat all lines of eatables sold well, and especially did merchants dealing in fresh fruit and vegetables report heavy sales. The demand for meat, poultry and fish was considera-

for meat, poultry and fish was considerably greater than it has been for a number of weeks past. The greatest demand in the poultry line, however, was first spring chickens and wild ducks.

Cabbage, cauliflower, potatoes and carrots were the best sellers in the vegetable line, and fruit reported the heaviest sales in raspherries, blackberries, apples, oranges and bananas. Peaches and pears seemed less popular with the housewife. The demand for cantaloupes was also large, but watermelons did not sell nearly so well, perhaps owing to the fact that the price continues to remain rather high, despite the fact that the fruit is being received in the city freely. Among the receipts of the past week have been three carloads of California fruit, one carload of fresh products from Moapa. Nev. a shipment of fresh fish from Oregon and California, and a carload of tomatoes and cucumbers from the Lone Star State.

Look Up a Doctor's Record **Before Paying Out Your** Money

Beware of the man who hides behind a "Fake Medical Co." or "Fake Medical Institute." Go to the County Records, see if there are any such frauds registered as Doctors entitled to practice Medicine. If not WHY NOT! If you intend to consuit a Doctor, see first that his name is registered as a properly licensed practitioner, then look up his private record—learn how long he has been practicing—learn if he has cured anyone, (if he can show you the proof of his skill)—then learn if his charges are right and proper, and you will make no mistake.
